Dear Sir/Madam;

I do not have words to express how satisfied we are with the service provided by your installers; Bob & Preston.

I was very impressed by their professionalism. I asked a lot of questions which they both doubt have answered a million times. They were courteous, considerate and knowledgeable about the product they put in for us.

They worked methodically together and never missed a beat. There was no back tracking, no forgetting anything and the cleanliness guys I have ever met. They cleaned up better than me and I'm a fanatic when it comes to that.

Cameron was our Salesman and he was nice and kind enough to wait for a year and a half for us to make up our minds to go with Majors. The windows are what we expected and yes "I" love them, but I did not expect such considerate, professional installers. Bob and Preston made the experience worthwhile.

If you give out bonuses please remember Bob and Preston, they have represented Majors very well and I will make sure to spread the word about Majors and will make sure they request Bob and Preston to do the install.

Yours truly,

*Barlene Habblett*
